RICHARD HARTWELL- EXECUTIVE DIRECTOR; VIEWING FROM GALLERY OF LAB

DANIEL BURKE- ASSISTANT SCIENTIST; WORKING INSIDE LAB

JULIAN DELGADO- INTERN; WORKING INSIDE LAB

[00:01] Hartwell: Everyone, please be advised before you open the lab. It is possible that Agent Delgado will be in a... difficult state. Our job is to get him out as safely as possible and to return the lab to its original state. Dr. Burke, I need you to assess Delgado's condition before we do anything.

[00:10] *Clean up crew and Burke confirm*

[00:12] *a button is pressed, opening the transducer's booth door; smoke and rubble are cleared from inside by members of the crew; most of the crew is silent save for a few inaudible murmurs*

[00:54] Hartwell: Burke? Present the damage to me.

[01:01] Burke: Sir, we have a code red [TIME ANOMOLATION] case. He needs to get to a hospital now.

[1:06] Hartwell: Burke, I need more information. How does he look?

[1:09] Burke: His body is around 75% affected, almost all of his lower torso has been fused. Half of his face has been fused as well. He seems to be half-conscious.

[1:15] Delgado: [MUCH OF THE AUDIO HAS BEEN EDITED DUE TO IT BEING INAUDIBLE] Burke... Burke, please help me. What do I look like? I can't... I can't move my legs. I can't see out of my right eye... Burke, what's going on?!

[01:29] *Delgado screams and begins pounding the metal he has fused into; His words become less comprehensible the longer it goes on*

[01:45] Burke: [HEARD OVER DELGADO] Dr. Hartwell, we need to get him to a hospital. I think he has an intracranial hematoma. He needs medical assistance now!

[01:57] Hartwell: Burke, saw away the metal he has fused with. We will send him to our ward and get him help there.

[02:04] Burke: No, he needs serious medical attention, now.

[02:09] Hartwell: You know that we cannot risk the violations if this gets out to the public. Take him to the ward and do not question my authority any longer, Burke.

[02:14] *Saw begins to run through the metal, cutting Delgado's section free from the rest of the booth; He continues to struggle and scream for help; The crew has no authority to stop him from doing so, therefore the audio continues as he is carries out of the lab*

[02:49] *Audio log ends*
